MANTL

What sets MANTL apart from the market?

The MANTL solution offers:

Unified Deposit Origination

Meet every customer's needs with diverse product offerings from a single point of entry

Visibility Across Channels

Online and offline channels sync to the same back-end "control center" to give staff the visibility they need

Adaptive Due-Diligence

Tailored application requirements, configurable KYC waterfalls, and streamlined manual review process

Automated Decisioning

Increase back-office efficiency by maximizing automation, while minimizing fraud with configurable decisioning

Powerful Data

Accessible data for branch performance, marketing optimization, product testing, and more

Real-Time Core Integration

Modernize operations with real-time two-way syncing with any core

Robust External Integrations

Integrate with external systems including AML, OMB, and DMS providers

True Partnership

A dedicated implementation team to ensure a successful launch and white glove account management

Consumer & Business Account Opening in a Single Platform

Consumer Deposit Origination removes friction from account opening processes, empowering new customers to open a new deposit account in less than three minutes.

Business Deposit Origination delivers a best-in-class banking experience for businesses of all sizes — from small businesses to complex commercial enterprises.

Enable seamless transitions and maximize liquidity across every channel

In-Branch

Allow businesses and consumers of all complexities to walk into your branch and have bankers successfully open and fund an account in one sitting.

Online

Offer retail customers and businesses a simple way to originate an account online without staff intervention.

In the Field

Equip relationship managers with the tools to originate and upsell accounts during onsite visits.

Call Centers

Empower your call centers to reengage and complete abandoned applications directly on the phone without requiring an in-branch visit.
